NEW COLLECTIONS 2024
The Novelties

Marked by a refined and understated interior style, Boffi indoor and outdoor kitchens, bathrooms and interior systems create a visual experience with projects designed to become architectural statements. The models reinterpret tradition to offer versatile solutions capable of concealing shapes and functions or emphasising them with exclusive materials. The design takes on a new meaning in modern spaces, allowing fluid movement and a style consistent with the rest of the home that is reinforced by the unparalleled quality of Boffi. There are endless possibilities to create sophisticated, one-of-a-kind spaces with details that combine aesthetic finishes and top-tier functionality while moving away from inflexible style codes to focus on spacious comfort and performance.

BOFFI

The Migration of Shapes:
COVE KITCHEN

INDOOR KITCHEN

DESIGN: ZAHA HADID

YEAR: (2017) 2024

THE MIGRATION OF SHAPES

The Cove Kitchen is a monobloc piece derived from sinuous and simple lines using malleable materials such as Corian®. Employing architectural rigor and a forward-thinking concept, the design comes from the pioneering mind of Zaha Hadid and sees the work island doubling as a place for entertaining. The distinctive shape now evolves for the 90th anniversary of Boffi by covering the kitchen island with two side panels with rounded corners and countertops with perimeter edges gently curved downwards.

Innovative Projections:
K14

INDOOR KITCHEN

DESIGN: NORBERT WANGEN

YEAR: (2007) 2024

INNOVATIVE PROJECTIONS

K14 is a system of handle-free base units where the opening of the fronts and doors is accessed thanks to the 30° bevelled edge, the same detail seen on the countertop and which creates a sense of lightness. For 2024, the new K14 design features end panels that permit a functional snack area while underneath the seated area the marble extends down to sit just two centimetres off of the floor.

BOFFI

Birth of a New Icon:
NOVANTA

INDOOR KITCHEN

DESIGN: PIERO LISSONI

YEAR: 2024

BIRTH OF A NEW ICON

To celebrate the 90th anniversary of Boffi, Piero Lissoni has designed the Novanta kitchen system. The recessed base creates the illusion that the sturdy unit, made in stainless steel with doors in solid wood, is floating above the floor. These two tactile components are the perfect example to show how the industrial design research of Boffi has led to new types of architectures and materials.

BOFFI

Material Inspirations:
SALINAS

INDOOR KITCHEN

DESIGN: PATRICIA URQUIOLA

YEAR: 2014

MATERIAL INSPIRATIONS

This system allows for a range of sophisticated options yet maintains its forceful and linear character. Salinas can be set up based on a composition emphasising a single material or colour or according to a combination of materials and colours for each of the different elements to create a truly custom-made project. A new finishing from the Boffi range, the 3D Striped in MDi, characterises the doors, while the sliding solid wood snack counter, with its new dimensions, is placed on the top and is equipped with a technical support to lighten its presence.

BOFFI

Revisiting a Classic:
XO

INDOOR KITCHEN

DESIGN: ELISA OSSINO

YEAR: 2024

REVISITING A CLASSIC

The new design from Elisa Ossino is a model inspired by the timeless Xila kitchen designed by Luigi Massoni in 1972. The kitchen taps into a creative theme from Ossino with geometries that combine precise lines with gentle borders. Top and side panels work like a tactile gate to frame the iconic handle-free doors that sit just two centimetres off the floor. The entertaining component is not overlooked as the kitchen features a solid wood snack table atop the marble work surface.

BOFFI

In Becomes Out:
K6 OUTDOOR

OUTDOOR KITCHEN

DESIGN: NORBERT WANGEN

YEAR: 2024

IN BECOMES OUT

The K6 outdoor kitchen possesses all the requirements needed for use outside in an understated contemporary design that conceals a highly modern setup. Outfitted with a Corian® or stainless steel surface, the stand-alone single-unit creation from Norbert Wangen contains everything needed for food prep hidden inside a sliding countertop that when moved into a cantilevered position doubles as a dining area.

BOFFI

Thinking Outside the Box:
MINIKITCHEN OUTDOOR

OUTDOOR KITCHEN

DESIGN: JOE COLOMBO + CRS BOFFI

YEAR: (2012) 2024

THINKING OUTSIDE THE BOX

Designed by Joe Colombo in 1963, the compact Minikitchen on wheels is also available in a version for use outdoors in covered areas. The iconic half-cubic metre Made-in-Italy design features the necessary tools for cooking, food prep and storage. Thanks to dedicated research into materials, the self-supporting structure is made from a lightweight marine plywood resistant to moisture and sports a surface in Lasermat.

Elements and Atmospheres:
I FIUMI

BATHROOM

DESIGN: CLAUDIO SILVESTRIN

YEAR: (1999) 2024

ELEMENTS AND ATMOSPHERES

The re-edition of I Fiumi, a design by Claudio Silvestrin, is characterised by wall-mounted base units whose height allows one to save space in the bathroom without compromising on storage. The clean lines, without joints, remain together with the 45° bevelled edge. The 60-, 90- and 120-centimetre modules can be combined with the reposed Piave countertop washbasin. The new 2024 rendition introduces the monobloc version with a wooden column and Rubicone sink together with a precious mirror.

Create Your Own Space:
ANTIBES

SYSTEM

DESIGN: PIERO LISSONI + CRS BOFFI

YEAR: 2015

CREATE YOUR OWN SPACE

The wardrobe and walk-in closet are set up to accommodate accessories, practical compositions, refined finishes and integrated lighting – in short, everything needed to suit large and small spaces. The system allows maximum flexibility depending on one's needs. Different elements can be combined by placing the Antibes wardrobe with doors alongside a door-free Antibes walk-in closet with side panels. The system allows space for hanging wine glass racks as well as cabinets or a fridge to store wine.
