## Descrizione

Alcor è una famiglia di armadietti, credenze e console caratterizzati da un'estetica rigorosa e preziose superfici in legno, diretta espressione del livello di eccellenza delle lavorazioni artigianali di Maxalto. Disponibili in varie configurazioni, misure e altezze e con ante con cardini o a ribalta, cassetti e scomparti aperti, i mobili della collezione presentano un motivo a scacchiera intarsiato in vari tipi di legno e con diverse finiture. Un ulteriore trattamento delle superfici li rendere speciali e preziosi con variazioni cromatiche di gomma lacca. Quest'ultima, abbinata alle colorazione fa pensare all'Oriente, ma è allo stesso tempo espressione di grandi capacità artigianali. L'intera serie possiede una struttura dall'aspetto leggero e provvista di supporti in alluminio verniciato.
